Blessed Sacrament Parish 25th Anniversary Separate School Opened

Lieutenant Governor Officials

On Monday evening, His Honor W. L. Walsh, Lieutenant Governor of Alberta, and Mrs. Walsh came down in a private car to officially represent his Majesty, and attend at the opening of the Wainwright Separate School.

This ceremony also marks the twenty-fifth anniversary of the Blessed Sacrament parish here and in consequence was attended by the Archbishop of Edmonton, the Bishop of Calgary as well as many of the clergy from surrounding parishes.

The ceremonies opened with Solemn High Mass in the Church. His Honor the Lieutenant Governor visited a number of the public buildings and made a trip to the Buffalo Park.

At 2:00 p.m. the school children paraded to the memorial tower on Main street where His Honor placed a wreath on the monument and the Last Post was sounded. Many of the members of the local Branch B.E.S.L. were in attendance.

At 3:00 p.m. the corner stone of the school was blessed and a fitting address given by His Excellency, the Bishop of Calgary, followed by a short address by His Honor, the Lieutenant Governor, Rev. Fr. Doyle

speak briefly after which the flag was unfurled and the Lieutenant Governor declared the school officially opened.

The large crowd was then permitted to inspect the school rooms which are indeed well fitted up for the purpose.

The school children gave a banquet in the school to Mrs. Walsh. The evening programme included a banquet in the Elite Theatre, of which a more complete account will be given next week.

The day was bright and cool, giving every opportunity for enjoyment of the various functions of the day, to the large crowd who were in attendance.

Fred Hyland, of Edmonton, spent the weekend with his family who have been visiting with Mrs. Hyland's mother, Mrs. D. Tansey, for some time.

Harry Martineau, of Hughenden, arrived in town on Friday. He will take over the Rawleigh business while Mr. Himes and family enjoy a six weeks vacation to the U.S.A.

Bert Williamson is raising his home at Fabian this week.

Mr. R. S. Snyder, as Secretary of the Wainwright Stampede association wrote Council requesting the use of the Agricultural Grounds for June 15th and 16th in the years 1934, 1935 and 1936 with specified proposals in connection therewith.

On motion, the communication was referred to the Town Solicitor for advice as to the legal responsibility of the Town of Wainwright under a lease of these grounds for such demonstrations and, in case of a favorable reply from the Solicitor, that applicants be granted a lease of the grounds for the 15th and 16th days of June, 1934, on payment of the nominal fee of \$1,000, provided that satisfactory arrangements be made by them with the Agricultural Society relative to the buildings located thereon and provided they undertake to leave the grounds in the existing condition with the exception of improvements mentioned in their communication.

Mr. Robert Kenny wrote requesting credit for taxes on his property as he has not been receiving rental from this property since October 1933, and the family occupying his property has been receiving some measure of relief from the Town of Wainwright.

On motion, the Secretary was instructed to notify Mr. Kenny that Council does not see its way clear to grant his request.

On motion, the lease of Lot 16 in Block 39 Plan 945 Z to Mr. George Thomas for \$6.00 per month from May 6th, 1934, was confirmed.

The Old Age Pensions Department notified Council of the application of Mr. William Pilkington for increase of pension from \$18.70 to \$20.00 per month and, on motion, approval of Council for the increase was granted.

The Committee on Parks and Cemetery submitted the following report, viz:

We have gone fully into the matter of work and repairs necessary to maintain our cemetery in presentable condition. The work of cleaning up the cemetery, cutting weeds and brush will require the services of one man for about a week at odd periods during the summer at an outlay of \$15.00 to \$18.00. The building placed in the cemetery last winter is badly in need of being permanently placed upon a foundation. This building should also be plastered inside and painted outside. We have obtained figures on the cost of material and labor for the necessary improvements and repairs to this building which we submit herewith as follows:

Material for necessary repairs, \$44.70
Labor \$68.75 \$113.45

(Continued on Page 5).

Passchendale Happenings

A regular meeting of the Avondale U.F.W.A. was held on May 17 at the home of Mrs. Harriet Taylor. Eleven members were present, also several visiting ladies. The meeting opened with singing, "What a Friend we have in Jesus." The roll call was answered by "Early Memories of our Mothers." Minutes of last meeting were read and approved. Committee was appointed for preparing program for next six months also committees chosen for making arrangements for raffling organ, and for picnic to be held in July. Piano solo by Miss Virginia Gray and Mrs. Williamson, also a vocal solo by Miss Gray were much enjoyed by all. A very interesting paper on "Women of Soviet Russia" was read by Mrs. Gray. The meeting was brought to a close by singing "Abide with Me." A delicious lunch was then served by the hostess.

The next meeting will be held June 20th at the home of Mrs. Katherine Johnson.

Germany Purchases Large Amount Of Nickel From Canada

The deduction that Canadian nickel is secretly being imported via Holland by German armament manufacturers, and the almost incredible story that the Krupp firm received a royalty on every British hand grenade, made after its patent, which was hurried at German soldiers during the war, are two current highlights along the arms' trail "front" of a recent New York news despatch in The Toronto Star.

A preview of evidence to be submitted in the forthcoming United States senatorial investigation of the international armaments traffic is given in two new books, "Merchants of Death" and "Iron, Blood and Profits," and lay bare the munitions "racket" which Sir Edward Grey said was the main cause of the world war.

The authors reach the conclusion that armament makers have been instrumental in disrupting all of the recent disarmament conferences and peace movements, and are actively fomenting war scares.

"Merchants of Death" is by H. C. Engelbrecht, associate editor of The World Tomorrow, a magazine, and P. C. Hanchett, biographer and publicist. "Iron, Blood and Profits" is the work of George Selous, one-time European correspondent for North American newspapers and author of "The Vatican: Yesterday-Today-Tomorrow."

"The world war," declares Engelbrecht and Hanchett, authors of the first-named volume, "demonstrated the great importance of nickel in German armaments. Germany has no nickel resources. Hence the importance of the reports from Canada that Holland bought six times as much Canadian nickel in oxide and three times as much fine nickel in the first three months of 1933 as in the corresponding period of 1932. The only explanation offered for this phenomenon is that the nickel is in transit to Germany."

It is recalled that during the last war the British government imposed a rigid check on the exports of Canadian nickel, doing every thing possible to prevent its turning up in Germany. They refused to permit sales even to the United States, the book asserts, "unless its use in that country was proved."

In line with the recent startling disclosures regarding the munition operations of the European arms trusts in dealing with government officials, it is recalled that when the Hon. Louis Philippe Brodeur, Canadian minister of naval affairs, in company with his colleague, Sir Frederick Borden, minister of militia, came to London just before the war, they were lavishly entertained by Vickers officials.

The story of the Krupp firm's royalty on British grenades goes like

Golf Tourney Here May 24th

The Annual Tournament of the Wainwright Golf Club takes place on May 24th. From reports from outside points, a large entry of visitors is expected.

The course has been put into first class condition with a few changes having been made. The Club house has been moved and the former seventh is now hole No. 1 and the sixth hole, No. 9.

The committee would like to see all local members on hand Thursday morning for the day's program.

L.O.B.A. CELEBRATE FOURTH ANNIVERSARY

The members of the L.O.B.A., held their fourth anniversary on Tuesday night, which took the form of a musical entertainment to which were invited the members of the L.O.L. A good number were in attendance and a very enjoyable evening was spent.

this: After the war Krupp sued Vickers for one shilling for each fuse on which they claimed patent. They sued in all for 130,000,000 shillings. The case was withdrawn from the court, the book by Engelbrecht and Hanchett states, and privately settled outside. The authors declare that Vickers turned over to Krupp a settlement of a Vickers subsidiary in Spain.

Selous recalls that President Roosevelt told Commodore Litvinoff "only eight per cent of the people of the world want war," to which Litvinoff replied, "But those eight per cent are the people in power in certain countries."

These two books made it appear that it would be more correct to say that eight persons want war—the dictators of the armament combines which control the world munitions business. Most important of these is revealed, are Sir Basil Zaharoff, Greco-British super-salesman of munitions and little known Eugene Schneider, president of the Schneider-Creusot Co.

Engelbrecht and Hanchett assert that some of Hitler's financial support was derived from Schneider, who controls two powerful Nazi newspapers which constantly warn their readers of the "danger of disarmament" and of the menace of Germany. Thus, they state, "M. Schneider is in a position to pull two strings, one linked to Hitler & German militarism; the other tied to the French press and French militarism."

They show that the most important and largest arms making country today is France, where the Schneider group of industrialists dominates the munitions business. Great Britain's arms industry, concentrated largely in the hands of Zaharoff and the Vickers-Armstrong interests, is a close second to that of France. Czechoslovakia is third, because of the Skoda works, also controlled by Schneider, and the United States is fourth.

In "Merchants of Death," failure of the 1932 session of the disarmament conference at Geneva is directly attributed to the machinations of the French Schneider and British Vickers-Armstrong interests. Failure of the Geneva naval reduction party is credited to William B. Shearer, paid representative of three American shipbuilding concerns. The authors recall testimony that when European journalists referred to Shearer as "the man who broke up the conference," he proudly sent clippings to his backers. They also declare: "The American arms makers have employed the Navy League to prevent naval disarmament."

More than half the founders of this energetic league were gentlemen whose business would benefit by large naval appropriations.

—Provost News.

Minutes Of Council Meeting Municipal District Battle River No. 423

Very Large Agenda

The Council of the Municipal District of Battle River No. 423 met in the Municipal Office at Irma Alberta on Thursday, May 10th, 1934, with full Council present, the Reeve presiding.

Moved by Mr. Blakely—That the minutes of April 12th 1934 be accepted.—Carried.

Moved by Mr. Dalton—That the reports of Messrs. Smallwood and Burton delegation to Edmonton be accepted.—Carried.

Moved by Mr. Burton—That the matter of a weekly newspaper be laid over until after district meeting.—Carried.

Moved by Mr. Burton—That the Secretary write Royal Bank of Canada, Wainwright, regarding L. E. Woods' 12 and all 13 4/7. With that this Council seized their share of crop grown off it in land year 1933. Mr. Woods having disposed of the balance due on said seizure this Council are now requesting the equivalent of 340. Bus of Wheat from the said Royal Bank.—Carried.

Moved by Mr. Burton—That the report of Mr. Vesey's interview with Dr. Wallace re M.H.O. for part of this Municipal District be accepted.—Carried.

Moved by Mr. Burton—That the Secretary forward to Dr. Wallace of Wainwright an agreement for signature stating schedule of fees and remuneration for mileage for M.H.O. and indigent services.—Carried.

Moved by Mr. Vesey from Dr. Wallace re Mr. Abernathy Sr. be accepted.—Carried.

Moved by Mr. Blakely—That Messrs. Smallwood and Dalton be appointed as a committee to investigate as to the circumstances regarding Mr. Abernathy, Sr. and said committee have power to act on Departmental ruling if found necessary.—Carried.

Moved by Mr. Stewart—That the Secretary be instructed to write the Department of Attorney General asking if a person receiving Old Age Pension is classed as an indigent and what authority in such case is responsible for indigent services.—Carried.

Moved by Mr. Blakely—That privilege be extended to the Women's Institute of Irma to have a clean up day in the Irma Cemetery Wednesday, May 30th and that notice of same be placed in the Irma Times free of cost.—Carried.

Moved by Mr. Vesey—That the contract with H. G. Thunell of the Viking News re the Irma Times be discontinued after June 10th, 1934 and that agreement be drawn up with the Wainwright Record to supply a weekly newspaper known as the Irma Times to supply all raters living within the Municipal District of Battle River and within a radius of two miles of said Municipal District and that the charge for same to the Municipal District shall be the sum of \$200.00 per annum to be paid monthly also that said paper will be non partisan and non sectarian. For the Motion Messrs. Smallwood, Vesey, Burton, and Blakely. Against the Motion: Messrs. Dalton and Stewart. Motion Carried.

Moved by Mr. Vesey—That the Council purchase a sprayer for the use of the Weed Inspector of the Municipal District at cost.—Carried.

Moved by Mr. Blakely—That the Weed Inspectors be paid at the rate of 40 cents per hour and 10 cents per mile for miles travelled.—Carried.

Moved by Mr. Burton—That the Secretary be instructed to place the matter re D. Smith non support of his family with the Attorney General

for investigation.—Carried.

Moved by Mr. Blakely—That in consideration that W. W. Smith takes proper care of the children of D. Smith this Council pay him the sum of \$15.00 to June 14th, 1934 for their maintenance.—Carried.

Moved by Mr. Blakely—That the account from the Vancouver General Hospital re Ringsdale child be tabled and Mr. Vesey be appointed as a committee to investigate and report at June Meeting.—Carried.

By Law No. 41. A By-Law of the Municipal District of Battle River No. 423 authorizing a fee to Dr. Greenough a duly licensed medical practitioner of the Province of Alberta and payment thereof.

Moved by Mr. Burton—That By-Law No. 41 pass its first reading.—Carried.

Moved by Mr. Blakely—That By-Law No. 41 pass its second reading.—Carried.

Moved by Mr. Vesey—That By-Law No. 41 pass its second reading.—Carried.

(Continued on Page 4.)

HEATH HAPPENINGS

St. Patrick's W. A. held their annual meeting on Thursday afternoon May 17th, at the home of Mrs. Herbert. A report of the past year's work was given which showed that it had been a most successful year. The same officers were again elected by unanimous consent. Following election of officers, a lengthy discussion was held preparing for the entertainment at the Garden Party to be held on the evening of June 15, at the home of Mrs. Arthur Patterson.

Miss Mary Brown was a visitor in Wainwright over the weekend.

H. E. Mockford, of Coronation visited with his parents here over the weekend. He returned home on Monday.

FABYAN ITEMS

Starting from Sunday, May 15th, United Church Services with the Rev. T. Edgar Armstrong in charge will be held every second Sunday at the Fabyan School.

The members of the U.F.W.A. Club, Passchendale, held their regular monthly meeting at Mrs. A. A. Taylor's home. A number of visitors from Fabyan were present. The next meeting is to be at the home of Mr. and Mrs. Johnson.

Mr. and Mrs. Mayer are now residing in Fabyan, having rented Mr. Madder's cottage for the summer.

A game of football between Battle Heights and Fabyan schools was held last Friday. Fabyan got away with the big end of the score. The week previous Fabyan football team journeyed to Passchendale and played a game of football, this time they had to come home with a minor score.

The Fabyan Transfer Truck, was busy last week hauling out three cars of grain for Mr. R. Dalton.

Times must be improving as evidenced by the numerous trucks and cars both old and new travelling on the highway.

We wonder when Mr. Ad-mis is going to get that new car?

Mr. Williamson is giving his cottage a new coat of paint.

For any kind of hauling, see the Fabyan Transfer.

Seeding is practically finished in this district except for coarse grain and green feed.

A much needed rain has just been received. The moisture was badly needed and will insure more even germination for the late seeded crops.

Rainfall in April was 1.28 inches and a year ago same month was .10 inches.

ORANGE PEKOE BLEND

"FRESH FROM THE GARDENS"

Music Festivals And Spring

The music festival season, whether by accident or design, coincides with spring in this Western country; and it is peculiarly fitting that it should. The two seasons are highly compatible.

Spring is essentially the season of song—of the joy of new birth, of life freed from the trammels of winter, of new hope and refreshment, of the seed-time and the filling and bursting of the buds, of the urge to new endeavor, of fullness and a more exuberant contentment. The pageant of old celebrated its advent with rites in which music was the vehicle of expression of that mirth and jollity the softer sun inspired.

The association of spring with song is universal—has been universal down the ages; for in the spring, nature awakes from long hibernical sleep to the notes of its own orchestra and the song of its own choristers. What more fitting than that the soul of man should "blossom in singing" when spring brings life anew to prairie and woodland?

The music festival idea has given point and purpose to man's urge to vocalize the finer aspects of his emotional existence and experience. The remarkable growth of that idea in prairie communities, indicated in the constant expansion of the festivals, is one of the most reassuring evidences of the enduring quality of the social organization these communities reflect. The joy of singing and the love of music, emotions never realized nor appreciated to the full unless they are shared, are invaluable builders of closer ties of friendship and fellowship. The association thus cemented insures to a deeper sense of that brotherhood of man which makes the whole world kin.

Song is of the heart and of the spirit—a weaver of the very fabric of community life. Music symbolizes the harmony of which life is compact and without which it cannot long survive. It is significant that visitors to rural communities of the prairie west have been struck with the fulness of the social life obtaining in them, despite the lack of those amenities which are considered indispensable to the amenities of city life. This feature has been remarked upon particularly in relation to the remoter communities where residents have learned to rely upon their own resources and their own proclivities for social organization, and where, in co-operative endeavor, they have managed to add spice and variety to their ordinary routine.

Music and song have thus become the greatest adjuncts of peace and contentment among the scattered communities of the far-flung prairies. They have contributed greatly towards the alleviation of the pangs of disappointment. They have made hardship less onerous, reaction less disruptive. These annual festivals, bringing, as they do, urban and rural dwellers of kindred tastes together, and demonstrating, as they do, a heritage common to the diverse peoples composing the population of the western provinces, are contributing much towards that fellowship which, wider than the communal, reaches through the provincial into the national life.

It is right that the winter should be a season of preparation and practice; but it is essential that the festivals should be of the spring. That's where they belong.

Stowaway Makes Good

Boy On Antarctic Ship Has Become Popular With Crew

Fourteen-year-old Einar Lamber, who stowed away on the whaling factory ship Northern Princess, has made good. Einar was discovered when the ship was on her way to the Antarctic. He had crept into the ship the night she left, Sandefjord, Norway, and hidden under a barrel until hunger forced him to reveal himself. The skipper admired the lad's pluck, and made him assistant steward. His quickness and keenness soon made the boy extremely popular with all the crew. In dark hours after a hurricane had smashed the rudder of the Southern Princess and it seemed certain that she would be lost with all hands, Einar proved his worth. His bright cheery manner and utter disregard for danger helped the morale of the older men.

First Bills Of Lading

Were Short Compared To Wordy Documents Of Today

Bills of lading in the "good old days" of the sailing vessel were short and snappy as compared with the long details now printed in fine type on the back of such instruments.

A facsimile of a bill of lading issued in 1854 on "the good ship Meteor" from Boston to San Francisco released the ship and everybody connected with it from liability of all kinds in the brief, liability clause which read in part, "the goods to be delivered in good order, the danger of seas and fire excepted." In other words, if it got there fine, and if not, it was too bad.

The camel is a native of the North American continent.

Shortness of Breath Weak, Sinking Feelings

If going up stairs, climbing hills, walking too far; if the least exertion causes you to stop to get your breath, or if you have weak, sinking feelings, it is time for you to stop and think as to the cause of your trouble.

What you should do is take a course of Milburn's H. & N. Pills. They tone up and strengthen the vital organs so as to prevent any harmful attacks of disease.

Ask your druggist for Milburn's H. & N. Pills.

Sky Changes Coloring

At Different Altitudes

Moscow Experts Studying Records Taken In Stratosphere Flight

Remarkable evidence of changes of color in the sky at different altitudes in the stratosphere is one of the results which have been obtained by the experts in Moscow who are studying the records left by the crew of the Soviet stratosphere balloon, Stratosat which crashed after reaching the record height of over 13 miles.

Investigations are being carried on under the direction of M. Thomson, the senior scientific worker of the Central Weather Bureau. The gondola of the Stratosat carried numerous instruments for making automatic observations at various periods of the ascent and descent.

Among the data on which the experts have been working are twelve photographs taken at different altitudes, and twenty-seven spectrum observations.

The results of the preliminary investigations are stated to show that the sky gradually changes color as follows: 5.38 miles, marine blue; 6.83 miles, dark blue; 8.08 miles, dark violet; 11.81 miles, dark violet; 13.06 miles, dark violet grey; 13.67 miles, black grey.

This evidence bears out observations made by Professor Picard, the Belgian balloonist, and also by the crew of the Soviet Stratosat U.S.S.R., which made a previous high record attempt, who recorded that the sky at 11.81 miles high was "very dark violet."

The experts state that valuable records of sky colors were made by M. Vassenko up to the time when disaster overtook the balloon at a height, apparently, of 7.46 miles on the downward descent.

Wolves Kill Caribou

Trapper Brings Tale Of Wanton Destruction From North

Bringing stories of terrific onslaughts made by roving packs of wolves while the caribou were migrating, Edwin Sunquist, trapper of the sub-arctic, reached The Post, Manitoba, following nine months of travel west of Churchill.

Sunquist with his partners, John Ivanovich and Charles Hendren, left last July with supplies for winter trapping 185 mi north of Brochu. They travelled by canoe and reached their headquarters on Oct. 11. During the trip they saw no caribou. But on the morning after their arrival, they went outside to find the migrating herds passing, the door. Thousands of animals were moving south. Following close on their heels were packs of from five to 35 wolves. Sunquist said the wolves in many cases killed purely for wantonness, and when there were not deer to knock down, they turned on each other.

Organ Built By Blacksmith

Donated His Work And Instrument

Only Cost \$300
After four years' work Thomas J. Hoskins, blacksmith, motor engineer and organist, is completing a pipe organ in Pentre, Wales. The instrument, 12 feet high, nine feet wide, and seven feet deep, was made at the forge, and is in the garage, the home and the church. Hoskins was organist at the Carter's Corner Methodist Church. The old organ wheezed out, and the congregation was too poor to buy a new one. Hoskins bought an old instrument, and from it took pipes and keyboard. Then he made 600 new pipes, from three inches to nine feet long. He bought 20 sheepskins for the bellows, and used 25 pounds of glue, more than 2,000 screws, 15 pounds of nails and much wood. The new instrument will cost \$300. Hoskins has donated all his efforts.

May Have Dual Vision

Scientists Think Coon Adjusts Eyes For Day And Night

Raccoons that have reached the laboratories of the University of Colorado psychology department without meeting the usual fate of their kind on college campuses have convinced Dr. Lawrence W. Cole, head of the department, that they have a dual vision, one for daylight and the other for twilight.

Dr. Cole announced that, after two years of intensive experimenting with the furry little animals, he had found that they could tell red from gray but could not distinguish between two shades of gray.

The tall-growing hybrid dolphins can be reared from seed easily, but, as they do not come true, anyone wishing to increase the stock of a special plant must do so by division of the roots of that plant.

Agricultural Notes

Many Items Of Interest To The Western Farmer

There are 680 genera of seed plants occurring within the Dominion of Canada.

The only ground-bred evergreen tree in Canada is the Madrona. It is a small tree with thick leathery leaves and is found in the coast region of British Columbia.

The sales of branded beef in Canada for the first three months of 1934 totalled 3,609,450 lbs., an increase of 1,146,355 lbs. on the corresponding period of last year.

The disagreeable odour of the Canadian skunk cabbage is believed to be for the purpose of attracting carrion flies and thus securing pollination.

For the first three months of 1934, hogs graded in Canada showed an increase of 17,793 head over the corresponding three months of last year, namely, 835,588 in 1934; 817,566 in 1933.

Plantings of potatoes in Canada in 1933 increased one per cent, namely, 527,700 acres as compared with 521,500 acres in 1932, while the average yield was 78 cwt. per acre as against 70 cwt. per acre in the previous year.

The Canadian potato crop for 1933, according to the Markets Extension Division of the Dominion Department of Agriculture, is estimated by the Bureau of Statistics at 41,294,000 cwt., an increase of 5 per cent. over the 1932 production of 39,416,000 cwt.

The problems confronting the cheese industry in Quebec are quite similar to those in Ontario. In both provinces, declining volumes of output has a tendency to raise production costs per unit of product manufactured.—The Economic Analyst.

The minimum temperature reached in winter in Canada is of great importance in determining the distribution of plants, more particularly in the case of shrubs and trees. Zieraceous plants are often protected from the effects of severe cold by a covering of snow.—Division of Botany, Dominion Department of Agriculture.

In the shipments of livestock from Western to Eastern Canada during the first three months of 1934, cattle, calves, and sheep showed an increase, and hogs a decrease, compared with the corresponding period of last year, figures for the latter being within the following limits: cattle, 1,189,000; calves, 198,000; sheep, 31,215,230; hogs, 66,367,933,600.

The inclusion of rough-unsuitable types in the majority of the cattle shipments to the United Kingdom in 1933, especially during the season when grass-fed cattle were loaded, was disappointing, writes the Canadian animal products trade commissioner, in Great Britain, and it is injurious to the reputation of Canadian cattle as a whole. Only the right kind of cattle should be loaded for export.

The European apple sucker was first discovered in Canada at Wolfville, N.S. in 1919, and since that time has spread generally throughout Western Nova Scotia, as well as to the eastern section of New Brunswick and Prince Edward Island. To prevent further extension of this pest, a quarantine has been maintained on the known infested counties. This means that fruit growers in New Brunswick located outside of the counties of Westmorland, Albert, King's, and St. John, may not procure any of the host plants from these counties, or from the provinces of Nova Scotia and Prince Edward Island.

Have Never Seen Rain

Because of drought there are children ten years of age in South West Africa who have never seen rain. They have been discovered by the Minister of Lands who reports that rain has not fallen for seven years in some districts.

In their natural state the ruby and the sapphire are identical in composition, their difference in color being due solely to naturally included metallic oxides.

Soured ON THE WORLD?—THAT'S LIVER

Wake up your Liver

Many people who feel tired, sluggish and generally unwell make the mistake of taking mild, oil, mineral water, laxative candy or chewing gum, or anything which only moves the bowels. You need to wake up your liver. The only way to do this is by taking a course of Dr. Williams' Pink Pills. They will soon get you up, and you will be able to do your work. Ask for them at once. Before ordering, see at all druggists.

More Tobacco for the Money!

and POKER HANDS, too

with TURRET FINE CUT!

Wise smokers who "roll their own" cigarettes are making 10c do a bigger job than ever before. They're using Turret Fine Cut—the mild, cool, fragrant tobacco that gives them more and better smokes for the same money and POKER HANDS to exchange for free gifts.

A turn to Turret Fine Cut is a turn in the right direction: greater economy, greater pleasure and the extra value of POKER HANDS. Don't wait!

Save POKER HANDS to get Better Cigarette Papers FREE—Everybody agrees that "Chambers" and "Vogues" are the best papers—you can get 5 large books of either brand—free for only one complete set of POKER HANDS, from your nearest POKER HAND Premium Store or by mail from P.O. Box 1380, Montreal.

It pays to "Roll Your Own" with TURRET FINE CUT CIGARETTE TOBACCO

Imperial Tobacco Company of Canada, Limited

Figures Show Improvement Average Value Of Canadian Farm Stock Has Increased

The average value of farm land in Canada in 1933, including both improved and unimproved land as well as dwelling houses, barns, stables and other farm buildings, is placed at \$24 per acre in an estimate recently issued by the Canadian government. This shows no change since 1932. Average farm land values range from \$15 per acre in British Columbia to \$16 per acre in Manitoba, Saskatchewan and Alberta.

Average values placed on farm livestock are: Horses, \$52; milk cows, \$31; other cattle, \$17; sheep, \$4; swine, \$8.89. The changes from 1932 values are slight except in the case of swine, which have almost doubled, having increased from \$4.73 to \$8.89. In the same period the average value of wool increased from five to ten cents a pound. Total value of all farm livestock in 1933 amounted to \$408,135,000, an increase of about \$77,500,000 over 1932. The value of farm poultry is placed at \$33,454,000, a slight falling-off from the value in the previous year.

Average wages of farm hands during the summer season were \$17 per month for men and \$10 per month for women, board and lodgings, in both cases, being furnished by the employer. Counting in the value of board the average wages for men were \$32 per month and for women \$22 per month.

Of recent years, a number of promising smooth-awned barleys have been produced by different plant-breeding institutions, including the Dominion Experimental Farms, but these varieties have not yet been tested for a sufficient length of time to say which is the most desirable. For the present, however, the variety called Velvet is favoured in Eastern Canada, while Regal appears most promising in the West.

Iceland's capital is named Reykjavik, meaning smoking harbor, after the hot springs, which are so prevalent in the country.

The dahlias should not be planted until all danger from frost is over.

"Made In China"

Officials Make Up Irish Linen Handkerchiefs For American Trade
Handkerchiefs for sale in Atlantic City bearing the tickets, "Pure Irish Linen," and "Made in China," so aroused a visitor that he promptly wrote to the Belfast Times about it. In reply John Gulliland of Belfast, Director of the Irish Linen Guild declared that China is now buying thousands of pieces of linen to be made up into handkerchiefs and embroidered for the American trade. "Although Irish linen is used," he said, "owing to U.S. Customs laws articles coming into that country can only be accepted if they are marked with the place of origin—that is China." It is really a question of China obeying the Customs laws. As a matter of fact, Irish manufacturers are keeping a good grip on the handkerchief trade in America.

Served Three Kings

Royal Servant Is Retiring After Forty-Two Years

Royal servant during the reigns of three British kings, William Dowsett, King's Page, has just retired after 42 years at Buckingham Palace, King George's London residence. "Duff" Dowsett joined the royal service in 1892 as a footman. He gained promotion in successive stages and three years ago was appointed "Page-of-the-Back-Stairs," an honored position in the service which brings the opportunity of it into immediate contact with the sovereign.

In a speech in London recently the Prince of Wales urged every young man to become air-minded.

INSURANCE ON CHURCHILL ROUTE IS LOWERED

Ottawa.—During the open season of navigation for a well-flooded season, the risk of casualty is little, if any, greater on the Hudson Bay route than on the voyage to Montreal.

This is not the statement of a western body of trade, or of the On-to-the-Bay Association. It is the considered opinion of the Imperial Shipping committee, of London, and features the fifth report of the committee on Hudson Bay insurance rates in which a reduction in hull insurance rates for the 1934 season is announced.

The reduction is 10 shillings per cent, which means 10 shillings per 100 pounds sterling of insured value.

Instead of paying 50 shillings per cent as they did in 1932 and 1933, which works out at approximately 24 per cent, shippers this year will pay 40 shillings per cent, or approximately 20 per cent.

If ships are equipped with gyro compasses they will only pay 30 shillings per cent, or about 24 per cent.

These premiums will be the minimum charged for the suspension of the British North American warranty clause in all marine hull insurance contracts. The ordinary marine policies permit a vessel to sail the seven seas, with the exception of certain routes which are covered by special warranties. If a vessel desires to enter these routes an additional premium must be paid for the suspension of the warranty.

The fifth report of the Imperial shipping committee, while it announces this reduction in hull insurance rates and forecasts a further reduction if no casualties occur during the present season, does not hold out hope of extending the navigation season. And while admitting that last year, hull insurance on the St. Lawrence, the report goes on to say that underwriters do not base premium charges on known facts as much as upon recorded results and the volume of traffic. This refers, undoubtedly, to the loss of the Bright Star and to the inevitable disparity between the number of ships which use the St. Lawrence and the number which sail into Hudson Bay.

Chief importance of the report, therefore, would seem to be that longer navigation season on the bay and that in future the tremendously higher insurance rates imposed on the bay route are to be justified by lack of traffic volume and not by navigation conditions. While the report does not actually say so, the language used clearly implies that the committee regards the bay route as safer for shipping than the St. Lawrence.

Marketing Act

Hon. Robt. Weir May Be Minister in Charge Of Measure

Ottawa.—"In all human probability," Hon. Robert Weir will be the minister to administer the Marketing Act. This is the information given by Hon. Hugh Guthrie in the House of Commons when pressed by Hon. W. R. Motherwell, former minister of agriculture, who pointed out that the bill itself did not designate the minister.

"For greater convenience," said Mr. Guthrie, "and some elasticity the bill has been drafted in its present form as it is realized that agriculture is not the only natural product involved. I do not think I am going out of my way if I say that we may assume the minister of agriculture will be the man."

Pennyworth To Be Scrapped

Montreal.—Manseau Shipyards, Limited, of Borel, Que., has purchased the British freighter Pennyworth. It was learned here, and will scrap the vessel. The price could not be learned. The Pennyworth grounded last autumn on the Island of Orleans, near Quebec City, and all efforts to free her proved unavailing.

Crack Distance Flyers

Paris.—France's crack distance flyers, Paul Codos and Maurice Rosta, are considering plans for a Paris to Los Angeles or San Francisco flight, in an attempt to smash their own non-stop record.

Destroyer Taken Over

Lisbon.—A crew of British tars took over a Portuguese-built destroyer here in behalf of the Columbian navy.

W. N. U. 2047

Boost Tourist Industry

Proposed in Made For New Cabinet Post in This Connection

Ottawa.—A new cabinet post, that of Minister of the Tourist Industry, was advocated before the Senate tour committee.

The new portfolio was proposed by Morgan Eastman, Toronto, former director of the Greater Vancouver tourist bureau and one of the organizers of the Tourist Industries Association, co-operating between Vancouver and Seattle, Washington.

Present provincial tourist activities are inadequate, Mr. Eastman said. The transportation companies are mainly concerned with the prospective tourist traveling by rail, while 76 per cent of the tourists entering Canada come by motor. The bureaus maintained by various cities have a purely local motive. There is not at present a national tourist consciousness designed to boost all of Canada, and not the separate provinces. These were the reasons given for creation of the new portfolio.

The government has developed some wonderful attractions in our national parks, said Mr. Eastman. But these attractions are not being sold to the extent they should be in foreign countries.

"Why not have a new federal bureau placed under the direction of the minister of trade and commerce?" asked Senator Creelman MacArthur, Summerside, P.E.I.

The Canadian Pacific and the Canadian National Railways presented a joint brief to the committee, based on the present tourist advertising activities of the transportation companies.

The brief was prepared by J. Murray Gibson, general press representative of C.P.R., and C. K. Howard, manager of the tourist and convention bureau of C.N.R.

The railways advanced the opinion that advertising in the United States under the government's own name might reflect unfavorably, leading to be denounced as propaganda.

Marketing Bill

Mackenzie King Approves Proposed Changes In Act

Ottawa.—A significant statement by Rt. Hon. Mackenzie King that the amendments proposed to the marketing bill by Hon. Robert Weir had met some of his objections to the measure was made in the house.

The Liberal leader went further and suggested that if the government changed the legislation in respect to the powers of the board of control, regulation and marketing, a government responsibility, as far as I am concerned I would cease to have any opposition to the measure as a measure of an experimental character."

Mr. King stressed that one of the basic things in the British constitution was the control of parliament over expenditures. This principle was ignored in the measure, he said. Expenditures under the bill should be made by appropriations of parliament. Strong objection also had been taken by the opposition, he said, to part two, which left it to a particular group appointed to investigate and determine what was to be an offence.

"I am glad to notice the government had taken account of the force of the exception taken to these clauses," said Mr. King, "and is proposing to make a material change which will meet all that there was in the nature of opposition to that part of the measure. The government is proposing to do away with the word 'determine' and substitute the word 'report'."

"That means that when an investigation is held a report will be made by the investigators to the minister and to the government. The report will be public, and undoubtedly will be serviceable in helping to make more effective the law with regard to preventing the enhancement of prices or the restraint of trade which is unreasonable and unfair."

Northern Flight Record

Edmonton.—A new record was established in northland flying when Pilot Archie McMullen, Canadian Airways, flew into Fort Resolution and returned to Fort McMurray in the afternoon with a load of six passengers and a mail consignment. This flight is two weeks ahead of the previous earliest flight into Resolution.

Narrow Nationalism

London.—The chief obstacle to the attainment of international security is a spirit of narrow and self-seeking nationalism which refuses to pay the price whereby security and recovery can be achieved, Sir John Simon, the foreign secretary, told the House of Commons.

Withdraws From Commons

Mitchell Hepburn To Devote Time To Ontario Provincial Affairs

Toronto.—Mitchell P. Hepburn, Ontario Liberal leader, announced he would submit his resignation as member of the Dominion parliament to Rt. Hon. W. L. Mackenzie King, Liberal leader.

Mr. King will hand Mr. Hepburn's resignation to the speaker of the house on June 11, the day before the official nominations in Ontario.

"This should set at rest all doubt as to whether I am withdrawing from the Dominion parliament and devoting my whole time henceforward to the leadership of the Ontario Liberal party in the provincial election campaign," Mr. Hepburn declared.

Covered With Dust

Ship At Sea Does Not Escape Prairie Dust Storm

Boston.—The prairie dust storm which swept a large part of the eastern United States, left a blanket of prairie soil on at least one ship, many miles off Cape Hatteras.

"Captain Overbeck, master of the tanker F. Q. Barstow, reported to the naval hydrographic office here that during the early hours of last Saturday the ship seemed to be enveloped in a foggy blanket of what seemed like thick salt spray. When daylight came, he found the craft covered with between 1-16 and 1-8 of an inch of dust.

PROPOSAL MADE TO ABANDON ARMS PARLEY

Geneva.—A proposal to abandon the disarmament conference and report its failure to the League of Nations council was tentatively launched by conference leaders.

Although the idea has not been formally presented, it is known to be under consideration by statesmen seeking to inject new life into an ill patient.

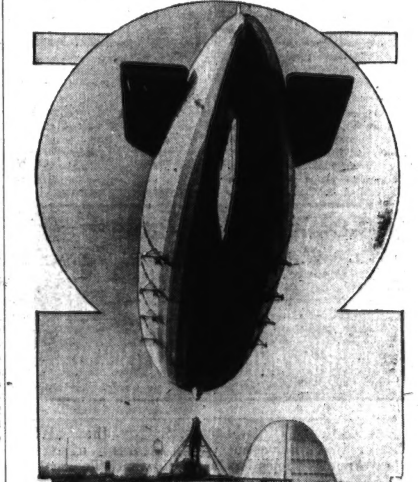

Encouragement for friends of disarmament came at the same time in a statement of France's foreign minister, Louis Barthou, that he had not given up hope of an agreement, and in reports that Germany is considering returning to the conference.

Mr. Barthou said that the powers are trying to force France to show her hand on the question of guarantees, and that France is trying to induce Great Britain into a pact for mutual military aid in the event that either France or Britain is attacked.

Foreign Minister Barthou's proclamation tended to counter the move for eventual conference adjournment.

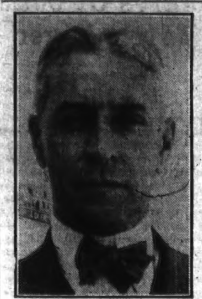

The impression prevailed here that disarmament will continue in a deadlock until the 1935 Saar plebiscite. It is decided whether that area will be returned to Germany, and until Germany herself returns to the conference.

U.S. SOUNDS DIRIGIBLE'S DEATH KNEEL

The prize of the United States Navy Air Force, the giant airship Macon, is pronounced a failure after being unable to defend herself in fleet manoeuvres off Cuba. In addition to her theoretical destruction by aeroplanes, the Macon sustained new actual damage when she was hit by a fire. This is the second occasion in recent weeks that the giant airship has had to put in for repairs, and many believe unless she shows better in her new tests with the fleet, no more airships will be built by the United States. Here we see the Macon swinging in the breeze as she lies anchored to her mooring mast.

MAY HEAD BOARD

Hon. Gordon Harrington, former premier of Nova Scotia, and now leader of the Opposition in that province, who is mentioned as a possibility for the post of chairman of the Board of Railway Commissioners. The vacancy was created when Hon. C. P. Fullerton became chairman of the Board of Trustees of the Canadian National Railways.

Canada Not Dumping Wheat

General Manager Of Wheat Pools Denies Published Report

Winnipeg.—Denial of published reports the Dominion government will dump its wheat holdings on the market was made by John I. McFarland, general manager of the Canadian wheat pools.

Rumors have been current among the grain trade for several days forced selling of government holdings was contemplated.

The Ottawa correspondent of a weekly financial journal reported: "With about three months of the crop year remaining, it is learned here the Dominion government intends to force wheat on the market in order to bring Canada's exports up to the London wheat agreement total of 200,000,000 bushels. Sixty million bushels of Canadian wheat remain to be sold before the end of July and information here is that the wheat will be marketed notwithstanding slight price losses which may result."

Mr. McFarland stated no such policy has even been discussed in Canada.

Lost Race With Fire

San Diego, Calif.—Overcome on a mountain trail in a desperate race from flames fanned by a strong wind, three Sera camp members perished in the forest blaze near Julian. The men, with about 22 others, had raced to safety from flames which threatened to trap them in a gulch.

To Be Deported

Montreal.—The first stayaway of the trans-Atlantic shipping season here is Charles Kinrade, 28, native of the Isle of Man. He landed from the freighter Carnarvon, out of Newcastle. He pleaded guilty and was sentenced to four weeks in jail, after which he is to be deported.

Saskatchewan Claims

Natural Resources Case Presented To Dymond Commission

Ottawa.—Saskatchewan's claims against the Dominion, growing from federal administration of the province's natural resources from 1905 to 1930, were presented formally before the Dymond royal commission.

The commission has been sitting since February 5, with long adjournments necessitated by hearings in Regina as well as Ottawa. A vast amount of documentary evidence was submitted by both sides previous to the opening of oral arguments.

P. H. Gordon, Regina, chief counsel for Saskatchewan, placed the province's total claims at \$161,629,751. This was made up of a claim for 31,000,000 acres of land the province charges the Dominion with having alienated, with a tentative value of \$4 per acre, a total of \$124,207,460 with interest; loss of taxes, \$2,588,835; loss of grazing rentals, \$1,157,909; loss of timber revenues, \$2,598,776; school lands and school land endowment fund, \$7,127,571.

J. MacGregor Stewart, Halifax, chief counsel for the Dominion, advanced tentative counter claims of \$170,000,000.

The Saskatchewan Act was passed in 1905 only after a great deal of opposition had been smoothed out, Mr. Gordon told the commission.

When Saskatchewan entered confederation, September 1, 1905, the province was not permitted to exercise any rights with respect to administration and control of its resources, he said. The province was thus placed in a position of inferiority with the other provinces.

Advances In Aviation

First Inland Aerial Mail Service In British Isles

London.—Two notable advances in British aviation were announced with the maiden flight of the Scylla, largest air liner in the world, and inauguration of the first inland aerial mail service in the British Isles, to commence shortly.

The Scylla made her maiden flight to Paris. Built for Imperial Airways, she carries 39 passengers, two pilots, a wireless operator and steward. She is powered with four 500 horsepower engines. The passengers are able to dine and hear radio programs.

The airmail service, to open in a few days, will run between Inverness and Kirkwall in the Orkney Islands.

NEGOTIATIONS BETWEEN WHEAT DELEGATES ENDED

London.—Ten days of private negotiations between the big four wheat delegates ended, leaving in doubt the question whether Argentina can be prevented from breaking the 1933 wheat agreement.

A report of the deliberations was being sent to the governments concerned, including Canada, the United States, Australia and Argentina.

It was indicated the report includes a tentative compromise arrangement under which no set amount would be loaned to Argentina on her quota under existing wheat export agreements.

It was known that during final sessions a firm demand was presented that Argentina reform its wheat sales practices before getting a bigger slice of the world wheat market.

Representatives of the Dominions and the United States were said to have stood pat on their insistence that Argentina must curb her alleged dumping. Dr. Thomas Le Breton, heading the Argentine delegation, came here May 4 in the hope of obtaining a 40,000,000 bushel loan.

In Motor Accident

Sir Austen Chamberlain Bruised And Badly Shaken

London.—Sir Austen Chamberlain, former foreign secretary, was bruised and badly shaken up as the taxicab in which he was riding collided with another cab in Grosvenor square and overturned. Examinations showed no bones were broken.

Lord Dawson of Penn, the king's physician, happened to be passing at the time of the accident and stopped his car to render aid. He was surprised to recognize the victim as Sir Austen and took him to his home. A bulletin issued said: "Sir Austen was badly shaken and a great deal bruised when his taxicab was run into and overturned. Fortunately no bones were broken."

Heads Pastor Institute

Pennsylvania.—Louis Martin, one of the world's foremost authorities on contagious diseases, was named head of the Pasteur Institute. For 40 years Dr. Martin has been associated with the institute.

Will Build Submarines

Washington.—The \$40,000,000 item for the United States navy President Roosevelt included in his latest budgetary request to congress will be turned to the construction of submarines and destroyers.

SEEK EVIDENCE FOR GRADE ON GARNET WHEAT

Ottawa.—Further evidence will be taken by the agricultural committee of commons before it reaches a decision as to the separate grading of Garnet wheat.

On the advice of Hon. Robert Weir, minister of agriculture, and endorsed by Hon. W. R. Motherwell, former minister, the committee took the view that absolute evidence of the necessity of such a change should be provided the thousands of farmers growing Garnet wheat before new grades should be insisted upon.

A sub-committee composed of A. M. Carmichael (Prog. Kindersley), W. H. Lousley (Cons.), W. E. Perley (Cons.), St. Appelle), John Vallance (Lib., South Battleford), Hon. Robert Weir, Hon. W. R. Motherwell, P. G. Davis (Cons. Athabasca), was appointed to decide on the evidence to be submitted.

At the opening of the meeting, Hon. H. Stevens, minister of trade and commerce, who is sponsoring the bill for separate grading of Garnet, stated he was leaving the measure in the committee's hands.

Mr. Motherwell strongly opposed the bill. He did not go into the merits of Garnet wheat, reserving that for a later occasion, but he protested leaving the fate of Garnet wheat with the grain standard board, as he said the bill proposed. All the members except one on the board came from southern districts that did not grow Garnet wheat. The one member from northern districts was a grower of Redwax, as Garnet had no representation on this board.

Mr. Weir, as at the former meeting of the committee, opposed any step to give Garnet a separate grading until there was proof that it was necessary. He dealt with the claims that Garnet was injuring Canada's wheat sales. At present Garnet is allowed, in number two northern and in lower grades, but is not allowed in number one northern.

Ontario Elections

Premier Henry Announces Voting Day June 19th

Toronto.—The Ontario general elections will be held June 19. Official nominations will be held June 12 and advanced polls on June 16 and 18.

Premier George S. Henry announced the dates and also dissolution of Ontario's legislature. Premier Henry made his brief announcement from the open window of his automobile as he left Government House. He had been conferring for 20 minutes with Lieutenant-Governor Herbert A. Bruce.

The lieutenant-governor signed the order-in-council providing for dissolution of the legislature and issuance of the writs. Premier Henry did not issue his election manifesto.

For three days Premier Henry and his cabinet have held conferences discussing the election date and preparing the Conservative manifesto. At the conclusion of the conference, the election date was forthcoming.

For weeks party heads have been campaigning in preparation for the vote. Premier Henry and his cabinet ministers have delivered addresses at numerous nomination meetings, and Mitchell F. Hepburn, Ontario Liberal leader, has waged a busy campaign.

Saskatchewan Elections

Voters To Go To The Polls On June 19

Regina.—Saskatchewan voters will go to the polls Tuesday, June 19. The date of the provincial election was officially announced by Premier J. T. M. Anderson. It will be the same date as the provincial vote in Ontario.

Election writs will be issued this week, Premier Anderson said, with Tuesday, June 19, official nomination day. Advance polls will be held Friday, Saturday and Monday, June 15, 16 and 18, respectively.

Heads Pastor Institute Pennsylvania.—Louis Martin, one of the world's foremost authorities on contagious diseases, was named head of the Pasteur Institute. For 40 years Dr. Martin has been associated with the institute.

Washington.—The \$40,000,000 item for the United States navy President Roosevelt included in his latest budgetary request to congress will be turned to the construction of submarines and destroyers.

WEDNESDAY, MAY 23, 1934

THE ENDURING STANDARD.

Even when the world was very young, people found it advantageous to interchange goods and services. There was opportunity here for injustice, since all wares were not of equal excellence and all workmen had not the same ability. Moreover, those who were in an intrenched position or who had more than ordinary cunning sometimes took advantage of the helpless and the ignorant. Yet, on the whole the method of barter worked fairly well, for inequalities were recognized. The good article usually brought the best price and the good workman received the greatest reward.

The system was obviously limited in its application both in time and space. It was necessary to find an intermediary that could be stored or easily conveyed from place to place. Hence there came into use the thing called money, which in its most common form had a metallic base—Copper, silver, platinum or gold. When later, notes of exchange were substituted for coinage, it was necessary for nations to have bullion in reserve. Hence arose another opportunity for injustice. It is possible for those who have the power, to depreciate the value of gold or silver when this seems expedient. A man who holds a dollar today does not know what its value will be in trade tomorrow. Nor can the worker who receives ten dollars for his services this week predict what he will receive next week for the same effort. We have all found that monetary standards may lack stability. This is forcibly illustrated everywhere at the present time.

The last medium of exchange to show its inability to retain a fixed standard is gold. It is doubtful if the attempts to adjust its value to that of other media or to commodities, or to work, will save it. To many people it seems that the amount on deposit is so small, and the whole treasury so badly distributed that gold is useless for the purposes of local trade and impossible as a medium for international exchange. So it is fashionable to be off the gold standard. What can take its place.

Because money is only a medium of exchange or an instrument in trade, it is necessary to enquire first of all of anything can be done to stabilize trade itself. To those who believe in national self-sufficiency the answer is higher tariff. To those who believe that all nations must rise and fall together, the answer is World Free Trade. No one will deny that this latter is the ultimate goal, even though it is not immediately attainable. This goal will be attained not primarily when monetary standards are agreed upon internationally but when people are willing to live and let live in the spirit of friendship and willing to trust one another in the spirit of justice. The stability that underlies all others, because it is enduring, is the stability of moral character.

To put it briefly, there is no hope for a world in which selfishness reigns. It is the mother of dishonesty, pride, crime, tolerance, injustice and all those other qualities that are inimical to brotherhood.

The cure for all ills is the cultivation in the individual life of the abiding graces of the soul. Where there is individual righteousness, community and national life will never exhibit the greed and cunning that in the older days often characterized the system of barter. Nor in these modern times, when money reigns, will injustice and tyranny dare nor even wish to show their power. Exchange of goods and services will continue and increase. The greatest exchange of all will be that of friend, in which distinctions of class, race and creed will be lost in the feeling of human brotherhood.

The greatest threat to peace and happiness right in Canada is the fact that so many young people, the finest young people in the world, are without employment. They are like children standing in the corner looking at the wall. Somehow there must be work found for them. It is not a matter of maybe, it a matter of must be. The one misfortune that forbodes disaster is the unemployment of young people. It is impossible to sidestep this great issue.

The truth is that there are men with wealth in Canada, enough of them to float a new loan of two hundred and twenty five million dollars in a few days last fall, but there is nothing of promise for the young people anxious to get into life. Canada's real problem is not concerned with money and business and profits, it is concerned with human beings who have to live and love and pass their hours in work and leisure. The first thought of any government should be the social moral condition of the people.

It is for Canada to lead the way.

N.R.A.

The National Recovery Act may or may not accomplish all that its originators hoped for, but for the time being it has succeeded in replacing despair by hope and unbridled selfishness by co-operation. The people of the United States are looking forward rather than backward. All of this is a distinct gain. Everyone will hope that there may be no disappointment but that the continued operation of the Act will result in abiding peace and prosperity.

Yet it would be folly to imagine that the recovery

Minutes Of Council Meeting Battle River M. D. No. 423

Continued From Page 1

Moved by Mr. Burton—That the agreement between Dr. McBride and the Municipal District of Battle River No. 423 and Medical Officer appointment be signed by the Municipal officials.—Carried.

Moved by Mr. Stewart—That the Board of Commissioners Order No. 50924 re railway crossing NW 36, 44-7-44th be accepted and filed in the Municipal Office for reference.—Carried.

Moved by Mr. Blakely—That this Council accept the chattel mortgage for \$225.00 on eleven head of stock from Vernon C. Peterson and Arlene Peterson in consideration of Hospitalization accounts paid by this Municipal District and release caveat on the SE 17-45-9-44th.—Carried.

Moved by Mr. Vesey—That Vernon Peterson be employed to brand the 11 head of stock in question given as security with the Municipal District and be paid 50 cents per head for branding said stock also Mr. Smallwood be appointed as a committee to supervise same.—Carried.

Moved by Mr. Stewart—That Mr. Smallwood as a committee be empowered to extend relief to K. Allan for \$8.00 for the month of May.—Carried.

Moved by Mr. Smallwood—That the Secretary correspond with Mr. Cardell of Wainwright re J. Drevitski's purchase of land W 1/4 36-47-7-44th stating that when J. Drevitski releases his claim to this Municipal District this Council will consider a sale to Anton Drevitski of this land.—Carried.

Moved by Mr. Dalton—That this Council sell to the Village of Inuit the W 1/4 Lot 30 Bk 1 Irma Cemetery for the use of Indigent purposes for \$7.50.—Carried.

Moved by Mr. Dalton—That Hons Kilby be appointed Road Foreman for Div. 1.—Carried.

Moved by Mr. Blakely—That Wm. Bacon be appointed road foreman for Div. 4.—Carried.

Moved by Mr. Smallwood—That P. Harvey and H. Kasten be appointed road foreman for Div. 3.—Carried.

Moved by Mr. Stewart—That R. O. Larson be appointed Road Foreman for Div. 4.—Carried.

Moved by Mr. Burton—That Clark Steele be appointed road foreman for Div. 6.—Carried.

Moved by Mr. Smallwood—That the appointment of Road Foreman for Div. 6 be laid over until June meeting.—Carried.

Moved by Mr. Burton—That the Secretary inform the Edmonton General Hospital the date of this Council's regular meetings.—Carried.

Secretary was instructed to inform the Supervisor of District Relief that the following parties will need continued assistance: K. Allan, C. Bruluit, N. Fingnashu, and J. J. Crowley.

Moved by Mr. Blakely—That the SW 4-44-9-44th be placed in the list of lands for sale of this Municipal District and advertised for sale as per Tax Recovery Act 1929 and amendments to be sold on Thursday July 12th, 1934 at 2:00 p.m.—Carried.

Moved by Mr. Blakely—That this statement for April 1934 be passed as presented.—Carried.

Moved by Mr. Stewart—That the Secretary be appointed Assessor for Wild Land purposes.—Carried.

Moved by Mr. Blakely—That the Weed Inspectors report of H. Larson

be accepted.—Carried.

Moved by Mr. Dalton—That this Council lease to A. McQuaker the W 1/4 13-44-7-44th to November 1st, 1934 for the sum of \$50.00, sixty days notice in case of Sale, lessor to control sodicous weeds.—Carried.

Moved by Mr. Smallwood—That the Secretary be instructed to take the matter up with Mr. Larson, weed inspector, regarding the millage compared with hours, inspecting and reporting with explanation at next meeting.—Carried.

Moved by Mr. Burton—That the matter of account of the Alberta Sanatorium re Mrs. A. Leduc be placed in the hands of committee delegated to that part of the district being Messrs. Smallwood and Dalton for investigation and account be tabled until June meeting.—Carried.

Moved by Mr. Blakely—That the following accounts be passed and paid.—Totalling \$225.38.

Moved by Mr. Blakely—That Council adjourn.—Carried.

HOPE VALLEY NOTES

A number of people from this district were in town for the Musical Festival on Tuesday.

H. H. Armstrong and his Girls' School Southall team were again victorious. They played a game with the Sports Club on Sunday afternoon. The score was twenty-four to twenty-six in favour of the school team.

We note that Frank Shaban has been on the Alsop Lea grounds for two Sundays. Why don't you come up sometime, Frank?

Alie had a boy friend. He was so cute and sporty. Every time he hit the ball, Alie said "Oh goody."

SYDENHAM ECHOES

Messrs. Dowling and Nicholson motored to Edmonton at the weekend.

A number from this district enjoyed the musical festival in Wainwright last week.

Mrs. Rivers and son, Bob, and Mr. Lang, of Loyalist, were the week-end guests of Mr. and Mrs. Watts.

GREENSHIELDS ITEMS

Mrs. A. Cook and baby, of Ryley, were visitors at the Plater home a couple of days last week.

Glenn Valleau arrived home Saturday evening from Olds, Alberta, where he has been attending the School of Agriculture.

Messrs. Quinn and Sellers, Superintendents of Alberta Wheat Pool, called here Thursday last.

Mrs. and Miss Beckett were visitors at the P. A. Murray home last Wednesday.

Mr. and Mrs. M. Martyna are now residents here, having moved from Arlinton, Saskatchewan this week.

We regret that Mrs. P. Patterson has been ill for several days and wish her better.

Mr. Tom Hill went to Edmonton on Sunday morning's train to see his daughter.

most needed in the United States, or for that matter Canada or any other country, is a recovery of trade. The Los Angeles Times has well said that "The real recovery is the recovery of Justice, Truth and Righteousness." Unfortunately for some time the world has almost forgotten the existence of these eternal verities. It is necessary that conscience resume its high office as dictator in the lives of men. "It must come in business—in the yard-stick, the bushel measure, the berry box, the tea chest, the label, the sales talk, the advertisement, the payroll." It is well to see an increase of goods, better to see an increase of goodness. This is old-fashioned doctrine, but who can deny its truth?

The Renovated Life

BY

T. EDGAR ARMSTRONG, B.A.; B.D.

Pastor Wainwright United Church

Text: Romans 12:12

I beseech you therefore, brethren, by the mercies of God that ye present your bodies a living sacrifice, holy, acceptable unto God, which is your reasonable service. And be not conformed to this world: but be ye transformed by the renewing of your mind that ye may prove what is that good, and acceptable, and perfect will of God.

The key words are "be ye transformed by the renewing of your mind."

I presume that you have seen things which give you the mental images necessary to appreciate my topic. You have seen a church or a house or a farm building completely transformed by the process of renovation. Before it was shabby and dilapidated but after it was a thing of beauty.

I believe the things we see, influence us much. I am very interested in getting you to see pictures. The more pictures I can hang up in your mental gallery the greater and more influential will be my ministry.

The implications of such a topic are far reaching. Lives like buildings become dilapidated and need to be renewed, retouched or renovated. This figure should inspire and challenge every worshipper to renovate life, yes, commensurate with anything we have witnessed in the objective world. The *Shabbat* would make new. My wife has transformed a world we would have if a change equally marked for good took place in the life of each person.

Someone has said how a thought we reap an act. Sow an act you reap a habit. Sow a habit you reap a character. Sow a character and you reap a destiny. So the things about which we think are the great destiny determining factors. By our thoughts life is degraded or elevated. Wordsworth spoke of "a presence that disturbs me with the joy of elevated thought."

Paul sees elevation through renovations.

Some translators give us the word "metamorphosed." The geologist speaks of three types of rock, igneous, aqueous and metamorphic. The latter is a product of the two former. Let volcanic action subjecting it to heat and pressure and it is metamorphosed. Marble is metamorphosed lime stone.

Some suggest transpiration "take away this heat of stone and give me a heart of flesh" but I believe the saint caught the idea when he said "a heart in every thought renewed." To the ancients the heart was the seat of intelligent action. Paul presents the same truth under the term "mind." We are to be transformed by the renewing of the mind. Paul in this exhortation asks the Romans to consider the mercies of God. That, he thought, would lead them to dedicate a renovated life to His service.

The idea of Sacrifice to God is almost as old as humanity whether it was inaugurated by response to a direct command of God or in response to a need in man we are not discussing. Man in his moral advancement did offer sacrifices. The method and material varied. At first it was a dead victim. It remained for Hannah, the mother of Samuel, to conceive of a living sacrifice. I Samuel 1:27-28. She left her boy to the Lord for service as long as he lived. As religion advanced it tends to become more inward. Moses wrote The Commandments upon stones. Jeremiah said "I will write on your hearts." In early scripture sacrifice was a material gift but the psalmist said "the sacrifice of God is a broken spirit and a contrite heart." By sacrifices they came into harmony with God and placed their lives at His disposal. He was the appeal of Paul to the Romans.

"Be not conformed to this world" where Lot went to dwell in well watered plains of the Jordan it was not long until he conformed to the life of Sodom. The slogan "When in Rome do as the Romans" is far too popular. There is nothing heroic in so doing. It simply means drift with the crowd, surrender to environment. Think of the daring of Paul. He advised the Christians in Rome to do otherwise. Be not conformed and transformed of society by the renovating of your minds. Daniel in Babylon would not conform to the Kings decree. He had a fixed purpose in life and the decree ran counter to it. The same is true of the three Hebrew children. Many

illustrations could be formed of individuals who by their services transformed peoples.

John F. Oberlin, hearing of the conditions under which the people of the Vosges survived volunteered as a missionary. These people suffered from ignorance and war. Two monsters! He was not content with preaching, when he saw the hovels they had for homes, the poor seed used in farming, the scrubby, and profitless fruit trees. He set himself to build roads, to get new seed and fruit trees. He also started schools and trained teachers. The entire district was so changed by this missionary from Germany that the French Government awarded him the Legion of Honor.

John Geddie was born in Pictou, N.S. in 1816. On completing his college training he challenged the Presbyterian Church to take up for this missionary work. The field chosen, in accepting his challenge, was the New Hebrides.

When he arrived at Anclutym in 1848 there was not a Christian on the island. The inhabitants were cannibals. When he left in 1872 there was not a heathen. They were a renovated people. They had thought of God, themselves and others.

Mention might be made of Mary Slessor. As a timid girl she feared to be on the streets of Glasgow after dark. Through the touch of Christ she was emboldened to stand between the warring tribes in Africa.

The call of God to young people may be to transform people and communities but the first emphasis of the call is to be transformed, renovated ourselves. We cannot give to others what we do not ourselves possess. The weak cannot impart strength. The illiterate have no knowledge to share. So we are to be the thing which we hope to inspire others to be. The individual is the unit and the value and character of the unit determines the group transformed by the renewing of your minds.

In renovating a building excavating may be necessary to get new foundation put under it. Many need a new basis for their faith. Tearing down and removing of shabby, self-worn debris is necessary. Then we add new. Renovation is marked by its newness as Paul said "If any man be in Christ he is a new creature. Old things are passed away and behold all things are become new." There is need of the old passing and new being established. This may be done by substitution. There is danger in leaving the house of life vacant. The old may seek to repossess it.

Now I wish to mention a few new things we need. A spring renewal, if you wish to call it such. We need new conceptions, new sympathies, new principles, a new sense of authority and new designs. (a) We certainly need new conceptions of the possibilities of life. I do not want to stick my head in the sand and be blind to tendencies, but the basic assumption of religion is that human nature can be changed. We see evil in high places, men worshipping mammon was glorified. Are these the ends for which man was created? We need a new evaluation of human worth. Demon freed men are of more value than swine.

(b) When I read the customs report and learn how the liquor interests defrauded the government out of taxes and further when I read such a statement as this "we must not be satisfied with our present position but we must find a million boys and girls who do not know the Bible and get them to drink." (if not the exact words it is the thought). I feel that our sympathies should go out to homes that I must be bereft of happiness to provide gains for these unscrupulous people. Under the name of greater sobriety think of the encroachments that are being made in the lengthening of the hours of sale. We will wake up some day but the toll yet to be paid is enormous.

(c) I wonder at times as to the extent to which our principles differ from the pagan. To them wrong exists in being found out, ingenuity may out-wit morality.

Recall a man in difficulty going and my presence augmented his difficulty. Paul compliments certain people for their conduct when not in his presence. We need unalterable principles which are always right because God is in his heaven. Joseph in Egypt found Divine sanctions for when tempted he said "How could I

Town Council Meeting Minutes

Continued From Page 1

This committee are fully aware that the expenditure of money at this time should be carefully scrutinized by Council but we feel that the repairs contemplated in the cemetery are necessary. As \$50.00 of the former expenditure during the present year was applied on arrears of taxes and as some \$35.00 of the present contemplated expenditure will apply on arrears of taxes, we believe that the contemplated expenditure will require expenditure in cash of not more than \$100.00, including cash already expended.

All of which is respectfully submitted.

On motion, the report of the Committee on Parks and Cemetery was accepted and incorporated in the proceedings of the meeting and referred to the Finance Committee for authorization of necessary expenditures.

On motion, the Secretary-Treasurer was instructed to write Mr. W. Calder, Director of Petroleum and Natural Gas Division of the Lands and Mines Department for the Province of Alberta, submitting an offer of \$50.00 for the derrick located on the North-west quarter of Section 6 in Township 45 Range 6 West of the 4th Meridian.

On motion, it was unanimously resolved as follows, viz:

"INASMUCH as there is no active Board of Trade in the Town of Wainwright:

AND INASMUCH as Council did this time inspect the refinery of the Gold Standard Oil Company Limited at Wainwright:

AND INASMUCH as Council were forcibly impressed with the magnitude of the plant and the efficiency and ability of the management in producing standard products from local and imported crude oils:

NOW, THEREFORE, BE IT RESOLVED that this Council go on record as endorsing the efforts of the Town of Wainwright by reducing the annual license fee for a batch or female dog from \$10.00 to \$8.00 and further to provide for the issuing of a kennel license to residents applying for same, whose application is approved by Council, at an annual license fee of \$10.00.

On motion, Council was regularly adjourned.

do this evil and sin against God."

(d) There have been three recognized seats of authority, the pope, the Bible and the conscience. We must get back to the authority of Jesus personally, to truth itself. The man who of Jesus lies the character of the classics. Show me a command of God, the fulfillment of which does not mean enrichment of life. The same is true of his invitations. His authority is not arbitrary. He exhorts men to experience the way of truth. In the field of medicine the doctor is an authority so the authority of Jesus is the spiritual of an expert in the spiritual field.

(e) We need to see the designs of God in the world about us. To many people, the world is getting worse and worse and such are the designs of God. Right here I confess to a difficulty. My thought of a Christian is that of an individual who is making the Will of God effective in the world. Here we have people claiming to be Christian and believing that the world is getting worse and yet trying to prevent it from doing so. We have a Christian thwarting the Will of God. I trust you see my difficulty.

Jesus said "I'll be lifted up, will draw all men unto Me." Let us spend our energies in lifting him up and not in preaching a gospel of pessimism. Let us accept this challenge of Paul to enslave life by the thought of God and his designs.

Now I have spoken of new conceptions, sympathies, principles, authority and designs. The text is not exhausted. There is an explosive power in a new idea. It is like the little seed. It grows and possesses all.

Paul's appeal was that this was rational and reasonable. Isaiah felt that men were less grateful than the beasts of the field. They know their owner but man denies the rule and ownership of God.

Let us rise to our position in God and have our lives renovated in Him and dedicated to His service.

AFTER ACCIDENT SHE PUT ON WEIGHT

Kruschen Took It Off Again

A woman sends the following account of the consequences of an auto accident in which she was involved:—

"A year ago I had a very bad automobile accident, which left me more or less a cripple. Having to be in bed so long, and being unable to move, I began to put on flesh. When I was able to walk again, I found I was 34 lbs. and, being just under 5 feet, you may guess how I was placed. So I thought I would try Kruschen Salt, and I must say they have done me a lot of good in every way—but chiefly in keeping my weight down. In three months I lost 6 lbs. Then I left off taking the Kruschen, and I soon went up to 142 lbs. again. So at once I got more Kruschen, and am again steadily reducing. My weight last month was 134 lbs." (Mrs. W. H. M.)

Kruschen combats the cause of fat by assisting the internal organs to perform their functions properly—to throw off each day those waste products and poisons which, if allowed to accumulate, will be converted by the body's chemistry into fatty tissue.

WORLD HAPPENINGS BRIEFLY TOLD

Nathan F. Cropper, Saskatoon, won the prize for the highest standing in second year dentistry at McGill University, it was announced.

Leon Trotsky has shaved off his famous beard and moustache to conceal his identity as he wanders about Europe seeking a new refuge, it was reported.

Winnipeg health authorities were seeking to stamp out a widespread but mild epidemic of measles. Altogether between Jan. 1 and May 12 a total of 4,695 cases have been reported.

The House of Lords approved in third reading the bill forbidding rodents. The measure, which had already passed through the commons, was designed to protect animals from unnecessary suffering.

Japan's first official move in the trade deadlock with the United Kingdom was an effort to induce the London government to modify the restrictions recently placed on imports from Japan.

Dr. Stewart Ræburn Kirk, assistant professor of geology at the University of Manitoba, died at Winnipeg after a protracted illness. He was 35 years old and was a native of St. Andrews, Scotland.

The United States department of commerce issued statistics showing the value of foreign liquids held in bond warehouses to have increased from less than \$5,000,000 Dec. 31 to almost \$19,000,000 at the end of March.

If Canadian and United States wheat crops are reduced by one-third by the recent dust storms, it will be a "godsend," said Hon. Earl Vrooman, former assistant secretary of agriculture in the Wilson cabinet of the United States, in an interview at Toronto.

Citing the rapid decline in the number of cases of tuberculosis in Saskatchewan, Dr. R. S. Ferguson, superintendent of Saskatchewan sanatoria, expressed the opinion that within the next ten years the disease will practically have vanished from the province.

Donald Cameron McDevlin, third year student at United College, is winner of the governor-general's gold medal for general proficiency in the faculty of arts and science at the University of Manitoba. He is the son of Dr. and Mrs. A. McDevlin, Carman, Man.

Introduced into Canada in 1900, the Alaska variety of oats soon became recognized as an excellent early variety for Eastern Canada. The very early variety is also recommended for Manitoba, Alberta, and British Columbia.

The total annual production of clovers and grass seeds in Canada has remained about the same in recent years.

Gardening

Successful Plantings Ensure Fresh Vegetables Until Late Fall

Doctors have finally convinced the public of the vital nature of green things to the diet at all times, and experienced gardeners have demonstrated that it is quite possible to produce these green things for at least six months of the year. The whole secret is to make successful plantings of the above vegetables, starting just as soon as the ground is fit to work, with the peas, spinach, radish, cress and lettuce, continuing with these about three times at intervals of ten days and gradually adding carrots, beets, beans, heat lettuce, cabbage, Coss Lettuce, Chinese cabbage, tomatoes, egg plants, lima beans, all types of corn, with something going in right up to July.

Roughly speaking, insect enemies are divided into two groups—those that eat holes in the foliage and those that suck out the juices. For the first-named poison is usually applied, while the suckers are attacked with a burning spray which penetrates their hides. Often when both are present, a combination of poison and something that burns, such as lime sulphur and arsenate, give the best results. The damage from the biting insects is usually quite apparent, but the presence of the other kind is only shown in the wilting or withering of the foliage.

For sucking pests, chief of which are the aphids or plant lice, spray with whale oil soap, a quarter pound of soap to a gallon and a half of water; nicotine sulphate, or "black leaf 40"; or any other repellent secured from a reliable seed store. When fungus attacks the plants, the foliage usually turns yellow or brown, or white spots like mildew cover the leaves. Fungus is most common in warm, muggy weather.

A Real Life Saver

Missionary Always Carries One To Make Savages Laugh

If you want to save your life from savages, just make them laugh. That is the advice of Rev. A. J. Dyer, one of a party of missionaries now visiting some of Australia's fiercest aborigines, voiced before starting from Canberra for Arnhem Land, in the northern part of the country. Troubles arose recently between the missionaries and the natives, and the missionaries hope to pacify the warriors. Mr. Dyer puts his faith in the persuasive powers of a tin toy squeaker. More than once, he said, he has saved himself from savages by playing the squeaker, with appropriate comic gestures and facial contortions, until he made them laugh.

"I like to see something that has plenty of funny lines," says a dramatic critic. Then why doesn't he buy a zebra?

Don't make the mistake of giving a man advice that doesn't confirm his own opinion.

Little Journeys In Science

VITAMINS
(By Gordon G. Grant, M.A.)

Among the notable discoveries made by scientists in recent years, is that of vitamins. While they are as yet not known to have shape, taste, weight or color, they have been found to be a very necessary part of the diet, and to prevent many forms of disease. They were first discovered to exist in certain foods by medical men who were experimenting with the effect of diet on health. At about the same time, food chemists came upon these mysterious characteristics which could not be classified with fats, carbohydrates, proteins or mineral matter, the known components of food, yet which seemed to have definite life-giving qualities. Work is being constantly done by scientists in many lands, in an effort to find out exactly what vitamins are, but so far they have only been able to classify them according to what characteristics can be observed. As far as is known, vitamins contribute no material substance or energy to the body, but they act as what chemists call a catalyst, that is, they speed up the life processes. Vitamins have been designated by letters in the alphabet.

Vitamin A is found in green vegetables, cod-liver oil and liver, and is growth-promoting. It was once thought it prevented a dread eye disease, but this theory is no longer held.

Vitamin B is found in vegetables, milk, wheat, fruit, grains, flour and yeast. It is one of the most important members of the vitamin family, for it prevents beriberi, a dread disease contracted by people who live on polished rice.

Vitamin C occurs in fruit and is a small extract in milk. This vitamin prevents scurvy, a disease which formerly took many lives.

Vitamin D occurs in cod-liver oil and it prevents rickets in infants.

Vitamin E is found in meat, the germ of the wheat seed and in numerous other natural foods.

Vitamin G, only recently discovered, is found in some types of yeast and has growth-promoting qualities.

Recipes For This Week

(By Betty Barclay)

MACEDOINE SALAD

(Serves 6)

2 cups shredded cabbage

3 cups shredded raw carrots

1 cup diced celery

1 tablespoon sweet onion, finely chopped

3 oranges

French dressing

Lettuce

Mayonnaise

If vegetables are not crisp and fresh, soak in ice water 1/2 hour before shredding. Drain thoroughly. Mix vegetables with oranges, which have been pared and cut in pieces. Moisten with French dressing, arrange in lettuce cups and serve with or without mayonnaise, as preferred.

EGGS MOBILE

1/2 onion

1 green pepper

1 pimiento

3 tablespoons butter

2 tablespoons flour

2 cups canned tomato

2 teaspoons sugar

4 hard-boiled eggs

Salt and pepper

Fry the sliced onion and chopped pepper in butter until tender. Add flour, tomato, chopped pimiento, sugar, salt and pepper. Cook together, stirring constantly, until thick. Serve on buttered toast. A sprinkling of grated cheese can be added if desired.

Flight From London To Melbourne

Wiley Post Intends To Fly The Winnie Mae In Race This Fall

Wiley Post has announced that he is about to fly the Winnie Mae, the monoplane in which he circled the globe, into shape for a "two-day" flight from London to Melbourne, Australia. The present record over that course is approximately one week. He is entering the MacRobertson international air race to be held next fall between the British and Australian cities.

MacRobertson has offered \$61,500 to the winner.

SUNDAY SCHOOL LESSON

MAY 27
THE LAST JUDGMENT

Golden Text: "We must all be made manifest before the judgment-seat of Christ." 1 Corinthians 13:10.
Lesson: Matthew 25:31-46.
Devotional Reading: Psalm 86:1-7.

Explanations And Comments

The Judgment, verses 31-35. When the Son of man shall come in his glory,—thus Jesus begins his parable of the sheep and the goats. Compare Mt. 24: 30; 25: 19.

At the Last Judgment, so Jesus parable declares, he himself will sit on the throne of judgment, and before him will be met all the actions, and he will separate them as the shepherd separates the sheep from the goats. This is a parable, for we are a heady and quarrelsome stock, these goats. Climbing everywhere, we are like wild beasts, and we are a heady and quarrelsome stock, these goats. Climbing everywhere, we are like wild beasts, and we are a heady and quarrelsome stock, these goats. Climbing everywhere, we are like wild beasts, and we are a heady and quarrelsome stock, these goats.

Service For Others is Service For Christ, verses 34-40. To those on the right hand the Judge will say, "Come, ye blessed of my Father, inherit the kingdom prepared for you from the foundation of the world."

The Fate of the Unrighteous, verses 41-46. To those on the left hand, the unrighteous, the King will say, "Depart from me, ye cursed, into the eternal fire which is prepared for the devil and his angels." The word for "hell" is "Gehenna." There was a field outside the city walls of Jerusalem to which the refuse and filth of the city were carried and there burned.

Has No Explanation

How Sleep Comes About Is Still A Mystery

Although almost a third of a person's life is spent in sleep, the problem of how sleep comes about is still a mystery. It had been supposed that during activity, fatigue substances accumulated in the blood, and exerted a narcotic action on the brain, periodically inducing sleep during which they were excreted. Investigation shows that an afternoon nap may come when there is little fatigue, that extreme nervous fatigue often leads to sleeplessness, and that normal sleep, unlike other narcotics is easily interrupted by noise or other disturbances. Another theory has been that during sleep the conduction pathways in the nervous system are broken by the retraction of small contact points between the neurones, which are the conducting units composing the nervous system. If this actually occurred, it would stop all nervous activity just as effectively as pulling the plugs from a switchboard would stop telephone communication, but there is no evidence to support the theory. Sleeping sickness has been found to be accompanied by damage to a point in the midbrain near its junction with the forebrain, and this region has been found to have an important relation to the alternation of sleep and wakefulness.

A Home On Wheels

Edmonton Man Builds Comfortable Trailer For Holiday Trip

Designed and built entirely by himself and an assistant, a luxurious house on wheels has been completed by J. J. Barrie, of Edmonton, in preparation for a tour this summer.

The two-wheeled, four passenger cabin trailer was built by Mr. Barrie "just to show them that we can produce things in Edmonton as good as anywhere on the continent." It took six weeks to complete.

Equipped with electric lights, cupboards, beds, gasoline stove, sink and toilet, the trailer is finished in a green and cream color scheme. Its dimensions are 12 by 6 feet.

Admired Own Work

When Dr. Lionel Holzman of Chicago made a set of false teeth for a lady customer he did a very extra special job—so he says.

"I just to show them that we can produce things in Edmonton as good as anywhere on the continent." It took six weeks to complete.

Equipped with electric lights, cupboards, beds, gasoline stove, sink and toilet, the trailer is finished in a green and cream color scheme. Its dimensions are 12 by 6 feet.

A survey made from Regina shows a reduction of 2,000,000 in Saskatchewan's wheat acreage. This is almost as large as that reported for the whole dominion by the federal bureau last week and about 400,000 more than it gave for the province. Evidence is steadily accumulating that the Canadian decrease from last year will be much more substantial than was at first thought.

AGENT FOR CREDIT COMPANY

J. W. Stuart, of Wainwright, has been appointed agent for the Dominion Agricultural Credit Company, Limited. The Company gives credit to farmers to acquire breeding stock. A recent address, "Alternatives to Grain Growing in the Prairie Provinces" by Dean A. M. Shaw, of the University of Saskatchewan has been printed in pamphlet form for free distribution to all who write to the Dominion Agricultural Credit Company Limited, at Regina.

During the recent big dust storm in Washington, D.C., the United States weather bureau figured that a square mile of atmosphere one foot thick contained 1,320,000,000,000 dust particles. So when a passing motor car kicks up a few penny million particles in your face one of these dusty days, just remember how easily you're getting off.

Mayor Foster was in Edmonton over the weekend.

News About Town

Preparations are now in order for the Big Stampede to be held at the Fair Grounds on June 15th and 16th. Two days of riding, horse racing, baseball, softball, boxing, dancing, etc. Reserve this date.

Mr. and Mrs. W. Goulet, accompanied by Mr. and Mrs. W. Hefferman and Miss Alice Dupre were visitors in Edmonton last week.

Donald Goodrich and N. Ricker have been called to Edmonton on jury duty.

Earle Tennant, of Edgerton, who was badly injured when a bat thrown by the striker hit him in the face breaking his nose and knocking out several teeth, is at the local hospital slowly recovering. He was 12 miles from town and lost a large quantity of blood before medical assistance could be secured.

Rev. H. B. Ricker, of Ribstone, was a visitor in Wainwright last week. He was returning from Edmonton where he had been taking convocation exercises at which he received his B.D.

Miss Vivian Stuart, of Unity, who had been giving permanent in town for over two weeks, returned to her home on Friday. She reported having done about eighty permanents while here.

Mrs. H. Smart went up to Edmonton on Friday last to spend a week as the guest of Mrs. H. Wade.

"I shall not be like husbands who get cross if the dinner is cold," as told her.

"And, darling, if you did I'd make it hot for you," said she.

Frank J. Simmonds, manager of Barber-Ellis Company, was a business visitor at the Record Office on Friday.

Mrs. William Pigeon received word last week that her mother, Mrs. A. Jarrett, of Amherstburg had passed away on May 15th. Our sympathies are extended to Mrs. Pigeon in her bereavement.

Mr. H. J. Appleton, Gas Inspector of Regina, was in town for a couple of days accompanied by J. M. Morris, of Edmonton.

The N. I. Club met at the home of Mrs. Frickleton on Monday evening.

Vaughan Gauderton spent Monday at his parental home here. He returned to Edmonton on Tuesday to play baseball.

Subscribe now for the RECORD.

The Agriculture Society are giving a repeat performance of the play "The Road Back" on Tuesday, June 5th at 8:15. This gives an opportunity for all those who missed the first performance to see the splendid play. Many who saw it before are making plans to take in this show again.

S. W. Scutchings and Mr. Howard Strawn, of Duvernay, spent the weekend with Mrs. Scutchings and family.

J. J. Ebyen, of Auburnville, drove home a new Ford car last week.

Mr. A. S. MacLellan is recovering from an injury to his back received when an enraged Hybrid attacked him recently at the Cattalo enclosure which he has charge of. Mr. MacLellan luckily escaped without serious injury but will be under the doctors care for a few weeks.

Mr. H. E. Dial, of Calgary, was a business visitor at the Record Office on Tuesday.

Lieutenant Governor Walsh and Party arrived in town on Monday night's train to be on hand for the opening of the Separate School Yesterday.

Robert Thomas, who has been visiting his home here for the last fortnight, returned to Vegreville on Monday, to resume his duties in the Bank of Commerce at that point.

Harold Brunker is having the roof of his garage retarded and the front repaired.

John Patterson is having a new garage built at his home on Main Street.

Born—To Mr. and Mrs. A. Gaulin, on May 19th, 1934, a son.

Vaughan Gauderton played baseball with the Shastra's in Edmonton last weekend and made the only run for his team. When Vaughan gets going they can't catch him.

The Baseball Team are going to Vermilion tomorrow, May 24th, to bring back the bacon.

Hugh Fraser, a former resident of Wainwright and now living at the Coast, was in town several days last week meeting old friends.

Mrs. H. Y. Pawling entertained last week in honor of Mrs. Perkins, who is visiting her daughter, Mrs. Joe McKenzie.

The stuccoing and other repairs on A. W. Kinghorn's house, north of town, is now completed and the home greatly improved in appearance.

It managed to go so its owner, a New Jersey man, called it a truck. But motor vehicle inspectors reported that "it was a 1921 model and had no tail light, no springs, no brakes, no name on the side, no exhaust pipe, no hood, no head lights, no flooring, no windshield wiper, no fan belt, no mirror, and only a tomato-can-accumulator and tares and one-half dry."

The rain of Sunday morning was a welcome visitor and will make a great improvement in the crops and gardens, etc.

Watch for posters advertising the Big Stampede coming to Wainwright on June 15 and 16. Two days of sports are being prepared.

He decided and she agreed that it would be best for both if they were foregoing and long-suffering, and patient with each other.

Rev. T. Edgar Armstrong went into Edmonton on Monday to attend the annual conference of the United Church to be held in that city this week and next.

The monthly meeting of the Women's Institute met at the home of Mrs. H. Mabey with all officers, fifteen members and three visitors present—the roll call being answered with a tribute to our Mothers. The usual business over, Mrs. A. H. Ford, constituency convenor, gave an excellent report of the Conference held in Edmonton which was very interesting. Lunch was then served. The next meeting will be held at Mrs. J. Cheynoweth's on June 14th when all the Grandmothers are expected to be present. The Women's Institute wish to take this opportunity of thanking all those who so liberally responded to homecoming during the festival.

THE A.Y.P.A. HOLD ENJOYABLE "KIDS" PARTY

A very enjoyable evening was spent in the Masonic Hall on Monday evening in honor of the President of the A.Y.P.A., Clifton Bradley and his brother Allan, who are leaving for Grand Prairie in the near future. The affair took the form of a "kids" party and a short time was spent in playing school, after which dancing was partaken in by all. Lunch was served and then Clifton and Allan each were presented with a gift from the members of the A.Y.P.A. They both have made many friends and will be missed very much.

SHOVEL OFF DUST DRIFTS

BRANDON, Man., May 22.—Dust storms Wednesday were boosting the expenses of the Manitoba department of highways. Highways maintenance gangs have been increased to shovel off drifts of sand and dirt on the roads west of here. A road scraper could make no progress, the drifts being packed solidly.

DOUGLAS GROUP IN GREEN SHIRTS

LONDON, May 22.—A new organization sporting the newest color not in political shirts—green—is getting plenty of notice elsewhere, but apparently none from the government.

The "Greenhirts" are among the supporters of Clifford H. Douglas, exponent of a "social credit" scheme for setting the world aright.

Six members marched unannounced to No. 10 Downing St. Monday to ask Prime Minister Ramsey MacDonald to apply Douglas' ideas to Great Britain.

A doorman accepted the petition, but the group was not permitted to enter.

Mrs. E. Gauderton spent Thursday in Edmonton on business.

The first basketball practice of the year was held on Wednesday, May 16. There was a fair turnout and a good practice was enjoyed.
